## Another Type of Dropout Indicator- The Graduation Rate

The National Center for Education Statistics (NCES) developed the following estimated cohort group rate as a practical way to calculate a graduation rate after studying a variety of calculation methods:

$$\text{Graduation rate = for year } t = \frac{\text{Number of high school completers at year } t}{\text{Number of high school completers at year } t + \text{Number of Grade 12 dropouts at year } t + \text{Number of Grade 11 dropouts at year } t-1 + \text{Number of Grade 10 dropouts at year } t-2 + \text{Number of Grade 9 dropouts at year } t-3}$$

*Note: GED recipients are not counted as high school completers*

The Montana School Accreditation Standards (10.55.603, ARM) require schools to do follow-up studies of graduates and students no longer in attendance, therefore, dropout and graduate data is collected from all public and accredited (by the Montana Board of Public Education) nonpublic schools. For more information on how dropout data is collected, please refer to the Montana Statewide Dropout Reports.

Office of Public Instruction Measurement & Accountability Unit
